MEMORANDUM FOR: Senior Review Panel

FROM:

[REDACTED]
Special Assistant for Nuclear Proliferation
Intelligence

25X1

SUBJECT: Draft of MTH/SNIE 31-81: "Pakistan's
Nuclear Weapons Program: The Next
Three Years"

Thank you for your comments on the subject draft about
which I have the following reactions:

Soviet Options: This is a quite important
area and we hope to include a paragraph on
Soviet reactions to possible Sino-Pakistani
collusion.

Pakistan-IAEA: There are no substantial changes
to what is recorded in the SNIE.

Program Scope: The extent and nature of weapons
production cannot be estimated with confidence
with available information including that con-
cerning acquisition of implosion system
components.

Chinese Fuel: The possibility suggested is
interesting, but believed to be quite remote.
